VETERINARIAN SERVICES

Trusted Professional Advice

Our highly trained staff can help with
drug information inquiries and assist
with the challenges of administering
medications to your animal patients.

Access to High Level Expertise

Our Director of Veterinary Pharmacy
has unparalleled experience in
treatment selection and optimization
for all species including large
animals and exotics.

Improved Patient Outcomes

Our pharmacists are knowledgeable
in complete medication reviews for
your animal patients. We serve as an
additional resource to clients in order
to discuss adverse drug reactions,
administration issues and to stress
the importance of follow-up.

CLIENT SERVICES

Education

We have developed numerous
resources (including veterinary
medical guides and drug
administration tip sheets) to improve
patient outcomes.

Affordability

Our staff can help determine the most
cost effective medication regimens for
your animal patients.

Peace of Mind

We offer numerous services to assist
your patients including delivery and
24/7 access to a pharmacist. We
also provide a free online toxicology
resource developed by our veterinary
pharmacy team.

LET OUR
FAMILY
TAKE CARE
OF YOUR
ENTIRE
FAMILY.

REALO VETERINARY PHARMACY CARE

The rapid growth of the veterinary pharmaceutical market has triggered interest from community pharmacies. Unfortunately the veterinary pharmacotherapy knowledge of pharmacists is often limited.

Realo Veterinary Pharmacy is different. We take pride in being led and trained by a credentialed veterinary pharmacist. Each of our staff members has been trained in core concepts to provide optimal care to our animal patients. Also, in keeping with our hometown values, we collaborate, rather than compete with, our local veterinarians.
